Property Description

This stunning villa, built in 2018, is located in the secure gated community of Roca Llista, offering breathtaking panoramic views over the Mediterranean Sea, Formentera, and the surrounding green hills.

Designed with intelligent architecture, the property benefits from natural temperature regulation: during summer, the high sun keeps the interiors comfortably shaded, while in winter, the lower sun gently warms the home. The villa is built to the highest technical standards, featuring modern installations and full air conditioning.

The architectural style combines modern minimalism with a touch of brutalist design, creating a timeless and sophisticated atmosphere. The open-plan living and dining area with a fireplace, floor-to-ceiling windows, and double-height ceilings seamlessly connects to the outdoor terraces and infinity saltwater pool, ideal for swimming and sunbathing while enjoying the sea view.

The property offers three spacious bedrooms, each with an en-suite bathroom, as well as a guest WC and a mezzanine level that can serve as a lounge, home office, or creative space.

A separate guest house (casita) includes one bedroom and a private bathroom and could easily be equipped with a small kitchenette, making it ideal for guests or staff accommodation. Beneath the pool, there is a technical room, an additional multi-purpose room that could serve as a staff or guest room, and a dedicated space for the HVAC system.

The villa provides two parking spaces at the top level and two additional parking spaces below, offering separate access to the casita and technical areas.

Equipped with a modern alarm system, the property ensures security and peace of mind within the already gated community. The minimalist design allows future owners to personalize the interiors according to their taste and lifestyle.

With only a few steps leading from the parking area to the entrance, this home offers ease of access and an immediate panoramic sea view upon entry – an architectural masterpiece blending style, comfort, and efficiency.
